

24TH ST. PETERSBURG INTERNATIONAL ECONOMIC FORUM

2-5 June

2021

THE THEME OF THE FORUM

A COLLECTIVE RECKONING OF THE NEW GLOBAL ECONOMIC REALITY

VLADIMIR PUTIN

PRESIDENT OF THE RUSSIAN
FEDERATION

Over the years, the Forum has been a place to discuss the most pressing issues facing both the Russian Federation as well as global economies. This year's event will be no different, with participants including leading government figures; senior executives from major corporations and financial institutions; renowned experts; and pioneering entrepreneurs. The need for open, constructive dialogue is particularly evident today. The COVID-19 pandemic has impacted all countries across the globe, and has severely restricted international ties. It is vital to work together as we forge a path to recovery.

The Russian Federation is also interested in closer economic, scientific, and technical cooperation with partners in other regions. We are ready to share our experience in areas such as healthcare and digitalisation, and to work with partners to build better telecommunications, energy, and transport infrastructure. We also recognize the importance of creating effective frameworks to cooperate in addressing key issues facing the environment and climate.

I firmly believe that the agreements reached at the Forum will contribute to the development of international relations and facilitate the implementation of new economic projects for the benefit of all our countries and peoples.

>13,500 PARTICIPANTS

COUNTRIES REPRESENTED
