

## **How to Donate**

If you would like to donate money towards the coordination of aid to elderly and limited-mobility citizens who find themselves in self-isolation and are considered at risk due to the spread of the COVID-19 coronavirus, please use the Payment Form.

The donation can be made using one of the following methods:

### **1. Donating using your bank card**

Our website is set up for Internet acquiring. You can make a donation using a plastic card issued by the Visa International and MasterCard international payment systems.

After entering and confirming your data and the donation amount, a new secure window will take you to the Paykeeper processing centre payment page, where you will be asked to enter your bank card information. 3D Secure protocol is used for additional payer authentication. If your bank supports this technology, you will be redirected to its server to complete the additional identification.

Contact the bank that issued your bank card for information about additional identification rules and methods.

### **2. Donating using the Faster Payments System**

The Faster Payments System is a service from the Bank of Russia that allows individuals to instantly transfer money using a mobile phone number to any bank participating in the FPS (a complete list of banks can be found at [sbp.nspk.ru/participants](http://sbp.nspk.ru/participants) (in Russian)), as well as to use a QR code to pay for goods and services in retail and online stores (more information can be found on the website [sbp.nspk.ru](http://sbp.nspk.ru) (in Russian)).

The Faster Payment System's QR code is a barcode that contains all of the necessary payment information – bank details, amount, and purpose. Optical encoding ensures that the payment information is protected and cannot be read without the use of special software on a mobile device.

If you choose to make your donation using a QR code, after the payment form has been completed, the system will generate a QR code that you will then need to scan by logging in to your FPS Partner Bank's mobile app, selecting the pay with QR code section, scanning the provided system code, and completing the transfer using the pre-filled payment order form.

### **4. Donating through Qiwi Wallet**

In order to make a donation using this method, you need to have a Qiwi Wallet ([qiwi.com](http://qiwi.com)).

1. Choose the Qiwi Wallet payment method in the payment section and enter your Qiwi Wallet number.
2. Your Wallet number is your mobile telephone number. If you don't have a Wallet, it will be created automatically when you continue to the payment section.
3. Choose one of the following options to confirm your authorization:
  - enter your Wallet password,
  - enter the single-use code sent to you by SMS.

4. Select the 'Use Wallet balance' payment method. If there are enough funds in your Wallet, the payment will be deducted from your Wallet balance – simply press the 'Pay' button. If there are not enough funds in your account balance, add more money to your Wallet before paying.
5. The money will be charged after the payment has been confirmed. If you used a password to authorize, you will receive an SMS with a single-use code. Enter it on a special page to confirm your payment.
